In the event the owner and/or occupant refuses entry, the official is empowered to seek assistance from any court of competent jurisdiction in obtaining such entry.

TITLE I GENERAL PROVISIONS

CHAPTER 3 PENALTY

- 1-3-1 General Penalty
- 1-3-2 Civil Penalty -Municipal
Infraction

- 1-3-3 Scheduled Fines

1-3-1 **GENERAL PENALTY.** The doing of any act prohibited or declared to be unlawful, an offense, or a misdemeanor by the City Code or any Ordinance or Code herein adopted by reference, or the omission or failure to perform any act or duty required by this City Code or any Ordinance or Code or any Ordinance or Code herein adopted by reference is, unless another penalty is specified, punishable in accordance with Iowa Code Section 903.1(1)(a). **No violation of the City Code shall subject an individual to incarceration.**

Code of Iowa, Sec. 903.1(1)(a)
(ECIA Model Code Amended in 2008)
(ECIA Model Code Amended in 2009)
(ECIA Model Code Amended in 2010)
(ECIA Model Code Amended in 2020)

1-3-2 **CIVIL PENALTY - MUNICIPAL INFRACTION.**

(Code of Iowa, Sec. 364.22)

1. Definitions.

a. **Municipal Infraction.** Except those provisions specifically provided under state law as a felony, an aggravated misdemeanor, or a serious misdemeanor or a simple misdemeanor under Chapters 687 through 747 of the Iowa Code, the doing of any act prohibited or declared to be unlawful, an offense or a misdemeanor by the Code of Ordinances City of Luxemburg, or any Ordinance or Code herein adopted by reference, or omission or failure to perform any act or duty required by the Code of Ordinances City of Luxemburg, or any Ordinance or Code herein adopted by reference, is a “municipal infraction” and is punishable by civil penalty as provided herein.

b. **Officer.** The term “officer” shall mean any employee or official authorized to enforce the Code of Ordinances of the City of Luxemburg.

c. **Repeat offense.** The term “repeat offense” shall mean a recurring violation of the same section of the Code of Ordinances.

2. Violations, Penalties, and Alternative Relief.

a. A municipal infraction is punishable by a civil penalty as provided in the following schedule, unless a specific schedule of civil penalties is provided for specific offenses elsewhere in this Code.

Schedule of Civil Penalties

First Offense—Not more than seven hundred fifty dollars (\$750.00).

Repeat Offense—Not more than one thousand dollars (\$1,000.00).
(ECIA Model Code Amended in 2010)

b. Each day that a violation occurs or is permitted to exist by the violator constitutes a separate offense.

c. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action.

3. Civil Citations

a. Any officer authorized by the City to enforce the Code of Ordinances may issue a civil citation to a person who commits a municipal infraction.

b. The citation may be served by personal service, substituted service, or by certified mail, return receipt requested, or by publication as provided in the Iowa Rules of Civil Procedure.

c. The original of the citation shall be sent to the Clerk of the district court. If the infraction involves real property a copy of the citation shall be filed with the County Treasurer.
(ECIA Model Code Amended in 2011)

d. The citation shall serve as notification that a civil offense has been committed and shall contain the following information:

- (1) The name and address of the defendant.
- (2) The name or description of the infraction attested to by the officer issuing the citation.
- (3) The location and time of the infraction.
- (4) The amount of civil penalty to be assessed or the alternative relief sought, or both.
- (5) The manner, location, and time in which the penalty may be paid.
- (6) The time and place of court appearance.
- (7) The penalty for failure to appear in court.
- (8) The legal description of the affected property, if applicable.

4. Seeking a civil penalty as authorized in Section 364.22, Code of Iowa, does not preclude the City from seeking alternative relief from the court in the same action. Such relief may include the imposition of a civil penalty by entry of a personal judgment against the defendant, directing that the payment of the civil penalty be suspended or deferred under conditions imposed by the court, ordering the defendant to abate or cease the violation or authorizing the City to abate or correct the violation, or ordering that the City's cost for abatement or correction of the violation be entered as a personal judgment against the defendant or assessed against the property where the violation occurred, or both. If a defendant willfully violates the terms of an order imposed by the court, the failure is contempt.

5. This section does not preclude a peace officer from issuing a criminal citation for violation of a City Code or regulation if criminal penalties are also provided for the violation, nor does it preclude or limit the authority of the City to enforce the provisions of the Code of Ordinances by criminal sanctions or other lawful means. Each day that a violation occurs or is permitted to exist by the defendant constitutes a separate offense. The violation of any provision of this Code of Ordinances or any regulation promulgated thereunder shall also constitute a simple misdemeanor punishable by a fine of **not less than \$65.00 but not to exceed \$625.00. No violation of the City Code shall subject an individual to incarceration. A simple misdemeanor criminal charge filed pursuant to this Code of Ordinances shall only subject an individual to a monetary fine.**

(ECIA Model Code Amended in 2017)

(ECIA Model Code Amended in 2020)

1-3-3 SCHEDULED FINES. The scheduled fine for a violation of any provision of the City Code shall be in accordance with State Code Chapter 805 unless another scheduled amount is provided in the City Code or Iowa Code.

6-2-4 BUILDING SEWERS AND CONNECTIONS.

1. Rain water leaders. Roof leaders, surface drains, or groundwater drains shall not be connected to the sanitary sewer.

2. Independent system. Each building sewer and drainage system shall be independent of that of any other building, except where one building stands in the rear of another on an exterior lot. The building sewer from the front building may be extended to the rear building and the whole considered as one house sewer when so approved by the City.

3. Use of public sewer required. Where a public sewer is accessible in an easement, street, or alley adjacent to a lot with a building or premises abutting thereon the liquid wastes from any plumbing system in said building shall discharge into the public sewer as provided by the sanitary sewer rules and regulations and/or rate ordinances.

4. Connection to the main public sewer. Before any connection is made to a public sewer, an approved permit for such connection must be obtained from the governing body or its designated representative. A permit and inspection fee of seventy-five dollars (\$75.00) shall be paid to the City at the time the application permit is filled. Each connection to the main sewer shall be made to the fitting designated for that property. If a fitting in the main sewer is not available for the designated property, the connection shall then be made under the direct supervision of the sewer inspector.

5. No person shall make connection of roof downspouts, exterior foundation drains, areaway drains, or other sources of surface runoff or groundwater to a building sewer or building drain which in turn is connected directly or indirectly to a public sanitary sewer.

6. The connection of the building sewer into the public sewer shall conform to the requirements of the State of Iowa plumbing code except as modified herein.

7. A “Y,” “T,” or “Cleanout” fitting may be installed near the building foundation to provide for cleanout purposes.

B. Pipe, Joints, and Connections.

(1) Service cast iron soil pipe, fittings, and joints shall be installed according to applicable plumbing code requirements and the recommendations of the Cast Iron Soil Pipe Institute and shall conform to:

Pipe and Fittings

ASTM A74 “Cast Iron Soil Pipe and Fittings”

ASTM A888 “Hubless Cast Iron Soil Pipe and Fittings”

Joints and Couplings

ASTM C654 “Rubber Gaskets for Cast Iron Soil Pipe and Fittings”

CISPI 301 “Couplings for Use in Connection with Hubless Cast Iron Soil Pipe and Fittings...”

(With stainless steel shield)

(2) Polyvinyl chloride (PVC) plastic sewer pipe, fittings, and joints shall be installed according to applicable plumbing code requirements and the recommendations of the Uni Bell Plastic Pipe Association and shall conform to:

D. Sewer saddles shall be of elastomeric poly vinyl chloride with integral flexible coupling for service line attachment that forms a water tight connection. Elastomeric saddle shall be held in place with a stainless steel frame, buckle, and strap. Alternate saddles may be approved by the Superintendent. Saddles shall be installed if a branch fitting does not exist in the sewer.

E. Flexible couplings shall be of elastomeric poly vinyl chloride (sleeve) and be secured in place and sealed using stainless steel bands. Flexible couplings shall be used for connections between dissimilar piping materials and diameters and for closure connections.

3. Size of Building Sewer. Building sewers shall be sized to meet capacity requirements, but no building sewer shall be less than four inches in diameter.

4. Grades for Building Sewers. Unless otherwise authorized, all building sewers shall have a grade of not less than one-eighth inch per foot. A grade of one-fourth inch per foot shall be used wherever practical.

5. Trenching and Backfilling. All excavations shall be open trench work unless otherwise authorized by the sewer inspector. The foundation in the trench shall be formed to prevent any subsequent settlement of the pipes. If the foundation is good, firm earth, the earth shall be pared or molded to give a full support to the lower quadrant of each pipe. Bell holes shall be dug. Backfilling shall not be done until final inspection is made by the sewer inspector. Backfilling shall be placed in layers and solidly tamped or packed up to two feet above the pipe.

Note: Where the floor of the trench is soft or rocky material the trench shall be excavated to four inches below grade and brought back to the proper grade with crushed stone so as to provide a firm foundation and uniform support for the building sewer line.

6. Use of Old Building Sewers. Old building sewers or portions thereof may be approved for use by the superintendent. The superintendent may request that the old sewer be excavated for the purpose of facilitating inspection. No old cesspool or septic tank shall be connected to

any portion of a building sewer that is also connected to the public sewer. Watertight couplings with stainless steel shields shall be used to connect different materials.

7. Inspection. Each and every part of the building sewer shall be inspected and approved by the superintendent before being concealed or backfilled.

6-2-5 USE OF THE PUBLIC SEWERS.

1. No person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, including interior and exterior foundation drains, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

2. Stormwater and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged, on approval of the Superintendent, and the DNR to a storm sewer, combined sewer, or natural outlet.

3. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

a. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.

b. Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) mg/l as CN in the wastes as discharged to the public sewer.

c. Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.

d. Solid or viscous substances in quantities of such size capable of causing obstruction to the flow of sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, ungrounded garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

e. Any water or wastes having (1) a 5-day bio-chemical oxygen demand greater than 300 parts per million by weight, or (2) containing more than 350 parts per million by weight, or suspended solids, or (3) having an average daily flow greater than 2 percent of the average

sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide at the owner's expense, such preliminary treatment as may be necessary to (1) reduce the biochemical oxygen demand to 300 parts per million by weight, or (2) reduce the suspended solids to 350 parts per million by weight, or (3) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

4. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream, or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances prohibited are:

a. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).

b. Any water or wastes containing fats, wax, grease or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150 degrees F) (0 and 65 degrees C).

c. Any garbage that has not been properly shredded. The installation and operation of any garbage grinder equipped with a motor of three-fourths (3/4) horsepower (0.76 hp metric) or greater shall be subject to the review and approval of the Superintendent.

d. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.

e. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances, or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.

f. Any waters or wastes containing phenols or other taste-or-odor-producing substances, -in such concentrations exceeding limits which may be established by the Superintendent as necessary after treatment of the composite sewage, to meet with requirements of the State, Federal, or other public agencies with jurisdiction for such discharge to the receiving waters.

g. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.

h. Any waters or wastes having a pH in excess of 9.5.

i. Materials which exert or cause:

(1) Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).

(2) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).

(3) Unusual BOD, chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.

(4) Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.

j. Waters or wastes containing substances which are not amendable to treatment or reduction by the sewage treatment processes employed, or are amendable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in 6-2-5(4), and which in the judgment of the Superintendent, may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

a. Reject the wastes,

b. Require pretreatment to an acceptable condition for discharge to the public sewers.

c. Require control over the quantities and rates of discharge, and/or

d. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provision of 6-2-5(10) of this article.

If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent, and subject to the requirements of all applicable codes, Ordinances, and laws.

6. Grease, oil, and sand interceptors shall be provided when, in the opinion of the Superintendent, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall not be required for private living quarters or dwelling units. All interceptors shall be of a type and capacity approved by the Superintendent, and shall be located as to be readily and easily accessible for cleaning and inspection.

7. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

8. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

9. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this Ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24 hour composite of all outfalls where pH's are determined from periodic grab samples).

10. No statement contained in this article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment, therefore, by the industrial concern.

6-2-6 PROTECTION FROM DAMAGE.

1. No unauthorized person shall maliciously, willfully, or negligently break, damage, destroy, uncover, deface, or tamper with any structure, appurtenance, or equipment which is a part of the sewage works. Any person violating this provision shall be subject to immediate arrest under charge of disorderly conduct.

(Code of Iowa, Sec. 716.1)

6-2-7 POWERS AND AUTHORITY TO INSPECTORS.

1. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all properties for the purpose of inspection, observation, measurement, sampling, and testing in accordance with the provisions of this Ordinance. The Superintendent or the Superintendent's representatives shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

2. While performing the necessary work on private properties referred to in 6-2-7(1), the Superintendent or duly authorized employees of the City shall observe all safety rules applicable to the premises established by the company and the company shall be held harmless for injury or death to the City employees and the City shall indemnify the company against loss or damage to its property by the City employees and against liability claims and demands for personal injury or property damage asserted against the company and growing out of the gauging and sampling operation, except as such may be caused by negligence or failure of the company to maintain safe conditions as required in Section 6-2-5(8).

3. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

6-2-8 PENALTIES.

1. Any person found to be violating any provision of this Ordinance except Section 6-2-6 shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.

2 Any person who shall violate any provision of this ordinance shall be guilty of a misdemeanor, and on conviction thereof shall be fined in the amount not exceeding one hundred dollars (\$100) for each violation. Each day in which any such violation shall continue shall be

deemed a separate offense. Notwithstanding the criminal provisions of this ordinance, the City may file a municipal infraction and seek appropriate remedial action.

3. Any person violating any of the provisions of this ordinance shall become liable to the City for any expense, loss or damage occasioned the City by reason of such violation.

(Ord. 1-2000, Passed September 5, 2000)

(Ord. 2-2016, Passed August 1, 2016)

(Ord. 01-2018, Passed February 5, 2018)

(Ord. 01-2020 Passed July 6, 2020)

6-2-10 LIABILITY. The owner of the premises served and the occupant thereof and the user of the sanitary sewer service shall be jointly and severally liable for the sewer service provided said premises. A hook-up fee of \$75.00 shall be required from all tenants. The hook-up fee shall be applied to any bill for sewer service delinquent more than 30 days.

6-7-7 INSPECTION. All improvements shall be inspected to insure compliance with the requirements of this Ordinance. The cost of such inspection shall be borne by the subdivider and shall be the actual cost of the inspection to the City.

6-7-8 MINIMUM IMPROVEMENTS. The improvements set forth below shall be considered the minimum improvements necessary to protect the public health, safety and welfare.

(Code of Iowa, Sec. 364.1)

1. Streets and alleys. All streets and alleys within the platted area which are dedicated for public use shall be brought to the grade approved by the governing body after receiving the report and recommendations of the City Engineer.

2. Roadways. All roadways shall be surfaced with portland cement concrete or with asphaltic concrete over a crushed stone base as the governing body may require.

3. Curb and Gutter. Curb and gutter shall be required on all streets. All curb and gutter shall be constructed to the grade approved by the governing body after receiving the report and

recommendations of the City Engineer. Newly constructed curbs and gutters shall comply with the Americans with Disabilities Guidelines (ADAAG).

4. Sidewalks. Sidewalks shall be required. Sidewalks shall be constructed to the grade approved by the governing body after receiving the report and recommendations of the City Engineer, and comply with the Americans with Disabilities Guidelines (ADAAG).

(Amended during 2015 codification)

5. Water lines. Where a public water main is reasonably accessible, the subdivider shall connect with such water main and provide a water connection for each lot with service pipe installed to the property line in accordance with the City Water Department standards, procedures and supervision.

6. Sewers.

a. Where a public sanitary sewer is reasonably accessible, the subdivider shall connect or provide for the connection with such sanitary sewer and shall provide within the subdivision the sanitary sewer system as required to make the sewer accessible to each lot in the subdivision. Sanitary sewers shall be stubbed into each lot. Sewer systems shall be approved by the governing body and the State Department of Health and the construction subject to the supervision of the Superintendent of public utilities.

b. Where sanitary sewers are not available, other facilities, as approved by the governing body and the State Department of Health must be provided for the adequate disposal of sanitary wastes.

c. Adequate provisions shall be made for the disposal of storm waters, subject to the approval of the governing body and to the supervision of the Superintendent of public utilities.

6-7-9 COMPLETION OF IMPROVEMENTS. Before the governing body shall approve the final plat, all of the foregoing improvements shall be constructed and accepted by formal resolution of the governing body. Before passage of said resolution of acceptance, the Superintendent of public works shall report that said improvements meet all City specifications and Ordinances or other City requirements, and the agreements between subdivider and the City.

6-7-10 PERFORMANCE BOND. The completion requirement may be waived in whole or in part if the subdivider will post a performance bond with the governing body guaranteeing that improvements not completed will be constructed within a period of one (1) year from final acceptance of the plat, but final acceptance of the plat will not constitute final acceptance by the City of any improvements to be constructed. Improvements will be accepted only after their construction has been completed, and no public funds will be expended in the subdivision until such improvements have been completed and accepted by the City.

MINIMUM STANDARDS FOR THE DESIGN OF SUBDIVISIONS.

6-7-11 MINIMUM STANDARDS. The following standards shall be considered the minimum standards necessary to protect the public health, safety, and general welfare.

1. Relation to existing streets.

a. The arrangement, character, extent, width, grade and location of all streets shall be considered in their relation to existing and planned streets, to topographic conditions, to public convenience and safety, and in their appropriate relation to the proposed uses of the land to be served by such streets.

b. The arrangement of streets in a subdivision shall either provide for the continuation of appropriate projection of existing principal streets in surrounding areas or conform to a plat for the neighborhood approved by the governing body to meet a particular situation where topographical or other conditions made continuance or conformance to existing streets impracticable.

2. Acreage subdivisions.

a. Where the plat submitted covers only a part of the subdivider's plat, a sketch of the prospective future system of the unsubmitted part shall be furnished and the street system of the part submitted shall be considered in the light of adjustments in connection with the street system of the part not submitted.

b. Where the parcel is subdivided into larger tracts than for building lots such parcels shall be divided so as to allow for the opening of major streets and the ultimate extension of adjacent minor streets.

c. Subdivisions showing unplatted strips or private streets controlling access to public ways will not receive approval.

3. Local streets.

a. Local streets shall be so planned as to discourage through traffic.

b. Cul-de-sac streets are permitted where topography and other conditions justify their use. Such streets shall not be longer than five hundred (500) feet and shall terminate with a turn-around, having an outside roadway diameter of at least eighty (80) feet and a street property line diameter of at least one hundred (100) feet. The right-of-way width of the straight portion of such streets shall be a minimum of fifty (50) feet. The property line at the intersection of the turn-around and the straight portion of the street shall be rounded at a radius of not less than twenty (20) feet.

4. Frontage streets.

a. Where a subdivision abuts or contains an existing or proposed arterial street, the governing body may require marginal access streets, reverse frontage with screen planting contained in a nonaccess reservation along the rear property line, deep lots with rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to afford separation of through and local traffic.

b. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the governing body may require a street approximately parallel to and on

each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park purposes in residential districts. Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.

5. Half-streets. Half-streets shall be prohibited except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations, and where the governing body finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half-street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.

6. Street Geometrics.

a. Street jogs with centerline offsets of less than one hundred twenty-five (125) feet shall be avoided.

b. A tangent at least one hundred (100) feet long shall be introduced between reverse curves on arterial and collector streets.

c. When connecting street lines deflect from each other at any one point by more than ten (10) degrees, they shall be connected by a curve with a radius adequate to insure a sight distance of not less than two hundred (200) feet for minor and collector streets, and of such greater radii as the governing body shall determine for special cases.

7. Intersections.

a. Insofar as is practical, acute angles between streets at their intersection are to be avoided.

b. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than sixty (60) degrees.

c. Property lines at street intersections shall be rounded with a radius of ten (10) feet, or of a greater radius where the governing body may deem it necessary. The governing body may permit comparable cutoffs or chords in place of rounded corners.

8. Street names. Streets that are in alignment with others already existing and named shall bear the name of the existing streets. The proposed names of new streets shall not duplicate or sound similar to existing street names. Street names shall be subject to the approval of the governing body.

9. Street grades.

a. Street grades, wherever feasible, shall not exceed five (5) percent, with due allowance for reasonable vertical curves.

b. No street grade shall be less than one-half (1/2) of one (1) percent.

10. Alleys.

a. Alleys shall be provided in commercial and industrial districts, except that the governing body may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading and parking consistent with and adequate for the uses proposed.

b. The width of an alley shall be twenty (20) feet.

c. Alley intersections and sharp changes in alignment shall be avoided, but where necessary, corners shall be cut off sufficiently to permit safe vehicular movements.

d. Dead-end alleys shall be avoided where possible, but if unavoidable, shall be provided with adequate turn-around facilities at the dead-end, as determined by the governing body.

11. Blocks.

a. No block may be more than one thousand three hundred twenty (1,320) feet or less than five hundred (500) feet in length between the center lines of intersecting streets, except where, in the opinion of the governing body, extraordinary conditions unquestionably justify a departure from these limits.

b. In blocks over seven hundred (700) feet in length, the governing body may require at or near the middle of the block a public way or easement of not less than ten (10) feet in width for use by pedestrians and/or as an easement for public utilities.

12. Lots.

a. The lot size, width, depth, shape and orientation shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

b. Minimum lot dimensions and sizes.

(1) Residential lots where not served by public sewer shall not be less than eighty (80) feet wide nor less than ten thousand (10,000) square feet in area.

(2) Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street service and parking facilities required by the type of use and development contemplated.

(3) Corner lots for residential use shall have an extra ten (10) feet of width to permit appropriate building setback from and orientation to both streets.

c. The subdividing of the land shall be such as to provide, by means of public street, each lot with satisfactory access to an existing public street.

d. Double frontage and reverse frontage lots shall be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least ten (10) feet

and across which there shall be no right of access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.

e. Side lot lines shall be substantially at right angles to straight street lines or radial to curved street lines.

13. Building lines. Building lines shall be shown on all lots within the platted area. The governing body may require building lines in accordance with the needs of each subdivision.

14. Easements.

a. Easement across lots or centered on rear or side lot lines shall be provided for utilities where necessary and shall be at least ten (10) feet wide.

b. Where a subdivision is traversed by a watercourse, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such watercourse, and further width for construction, or both, as will be adequate for the purpose.

15. Plat markers. Markers shall be placed at all block corners, angle points, points of curves in streets, and all such intermediate points as shall be required by the governing body. The markers shall be of such material, size and length as may be approved by the governing body.

PROCEDURES AND SUBMISSION REQUIREMENTS FOR PLATS

6-7-12 PROCEDURES AND SUBMISSION REQUIREMENTS FOR PLATS. In obtaining final approval of a proposed subdivision by the governing body, the subdivider and owner shall submit a plat in accordance with the requirements hereafter set forth and install improvements or provide a performance bond.

6-7-13 PRE-APPLICATION CONFERENCE. Whenever a subdivision located within the platting jurisdiction of the City is proposed, the owner and subdivider shall schedule a preapplication conference with the City Clerk. The conference should be attended by the City Clerk and such other City or utility representatives as is deemed desirable; and by the owner and said owner's engineer and/or planner, as deemed desirable.

The purpose of such conference shall be to acquaint the City with the proposed subdivision, and to acquaint the subdivider with the requirements, procedures, and any special problems relating to the proposed subdivision.

6-7-14 SKETCH PLAN REQUIRED. For the pre-application conference, the subdivider shall provide a map or sketch showing the location of the subdivision, the general location of any proposed streets and other improvements, and the general layout and arrangement of intended land uses, in relation to the surrounding area.

6-7-15 PRESENTATION TO PLANNING COMMISSION OR CITY COUNCIL. The subdivider may present the sketch plan to the governing body for review, prior to incurring significant costs preparing the preliminary or final plat.

6-7-16 SUBDIVISION CLASSIFIED. Any proposed subdivision or resubdivision shall be classified as minor subdivision or a major subdivision.

1. Minor Subdivision. Means any subdivision that contains not more than four (4) lots fronting on an existing street and that does not require construction of any public improvements, and that does not adversely affect the remainder of the parcel shall be classified as a minor plat.

2. Major Subdivision. Any subdivision that, in the opinion of the governing body, does not for any reason meet the definition of a minor subdivision, shall be classified as a major subdivision.

6-7-17 PLATS REQUIRED. In order to secure approval of a proposed subdivision, the owner and subdivider of any major subdivision shall comply with the requirements for a preliminary plat and the requirements for a final plat. The owner and subdivider of a minor subdivision or an auditor's plat may elect to omit the submission of a preliminary plat.

(Code of Iowa, Sec. 354.6)

6-7-19 REFERRAL OF PRELIMINARY PLAT. The City Clerk shall forthwith refer two (2) copies of the preliminary plat to the City Engineer and (2) copies to the governing body.

6-7-20 ACTION BY THE CITY ENGINEER. The City Engineer shall carefully examine said preliminary plat as to its compliance with Section 354.8 of the Code of Iowa and the laws and regulations of the City of Luxemburg, Iowa, the existing street system, and good engineering practices, and shall, as soon as possible, submit the City engineer's findings in duplicate to the governing body together with one (1) copy of the plat received.

(Code of Iowa, Sec. 354.8)

6-7-21 ACTION BY THE GOVERNING BODY. The governing body shall, upon receiving the report of the City Engineer, as soon as possible, but not more than thirty (30) days thereafter, consider said report, negotiate with the subdivider on changes deemed advisable and the kind and extent of improvements to be made by the subdivider, and pass upon the preliminary plat as originally submitted or modified. If the governing body does not act within thirty (30) days, the preliminary plat shall be deemed to be approved, provided, however, that the subdivider may agree to an extension of the time for a period not to exceed an additional sixty (60) days. It shall then set forth its recommendations in writing, whether of approval, modification or disapproval.

1. In the event that substantial changes or modifications are made by the governing body or disapproval of the plat, it shall give its reasons therefor and it may request and cause the revised preliminary plat to be resubmitted in the same manner as the original plat.

2. If approved, the governing body shall express its approval as "Conditional Approval" and state the conditions of such approval, if any.

3. The action of the governing body shall be noted on two (2) copies of the preliminary plat, referenced and attached to any conditions determined. One (1) copy shall be returned to the subdivider and the other copy retained by the governing body.

4. The “Conditional Approval” by the governing body shall not constitute final acceptance of the addition or subdivision by the City but an authorization to proceed with preparation of the final plat.

6-7-22 FINAL PLAT. The final plat shall conform substantially to the preliminary plat as approved, and, if desired by the subdivider, it may constitute only that portion of the approved preliminary plat which the subdivider proposes to record and develop at the time, provided, however, that such portion conforms to all requirements of these regulations.

6-7-23 REFERRAL FINAL PLAT. The subdivider shall, within twelve (12) months of the “Conditional Approval” of the preliminary plat by the governing body prepare and file four (4) copies of the final plat and other required documents with the City Clerk as hereafter set forth, and upon the subdivider’s failure to do so within the time specified, the “Conditional Approval” of the preliminary plat shall be null and void unless an extension of times is applied for and granted by the governing body. Upon receipt of the final plat and other required documents, the City Clerk shall transmit two (2) copies of the final plat to the governing body for its recommendations and approval.

Except for a final plat for a minor subdivision or an auditor’s plat as set forth herein, no final plat shall be considered by the governing body until and unless a preliminary plat for the area included in the proposed final plat has been approved and has not expired and become void as set forth above. At its discretion the governing body may refer the final plat to the City Engineer pursuant to the procedure established in 6-7-18.

6-7-24 REQUIREMENTS OF THE FINAL PLAT. The final plat shall conform to the requirements of chapter 355, Code of Iowa, and shall be clearly and legibly drawn to a scale of not more than one hundred (100) feet to one (1) inch with permanent ink on a reproducible tracing material. It shall show:

3. The passage of a resolution by the governing body accepting the plat shall constitute final approval of the platting of the area shown on the final plat, but the subdivider or owner shall cause such plat to be recorded in the office of the County Recorder of Dubuque, County, Iowa, and shall file satisfactory evidence of such recording before the City shall recognize the plat as being in full force and effect.

OTHER PROVISIONS

6-7-27 VARIANCES. Where in the case of a particular proposed subdivision, it can be shown that strict compliance with the requirement of this Ordinance would result in extraordinary hardship to the subdivider, because of unusual topography or other conditions, the governing body may vary, modify or waive the requirements so that substantial justice may be done and the public interest secure. Provided, however, that such variance, modification or waiver will not have the effect of nullifying the intent and purpose of this Ordinance. Such variances and waivers may be granted only by the affirmative vote of three-fourths (3/4) of the members of the Governing Body.

6-7-28 CHAIN SUBDIVIDING. No more than two building permits for each separate tract existing at the effective date of this Ordinance shall be issued unless the tract has been platted in accordance with this Ordinance; except that this provision shall not limit the number of building permits that may be issued for accessory buildings as defined by the (choose one)-(zoning or restricted residence district) Ordinance or additions or improvements to a main or accessory building already legally located upon said tract.

6-7-29 EXTRATERRITORIAL REVIEW AGREEMENT. The City of Luxemburg may, by resolution, waive its right to review the subdivision or waive the requirements of any of its standards or conditions for approval of the subdivision in the extraterritorial area. Such resolution shall be certified and recorded with the plat.

6-8-1 PURPOSE. The purpose of this chapter is to improve and maintain sidewalks in a safe condition, to require owners of abutting property to maintain, repair, replace, construct or reconstruct sidewalks.

6-8-2 DEFINITIONS. As used in this chapter, the following terms have these meanings:

1. Defective Sidewalk. Any public sidewalk exhibiting one or more of the following characteristics:

- a. vertical separations equal to three-fourths (3/4) inch or more.
- b. horizontal separations equal to three-fourths (3/4) inch or more.
- c. holes or depressions equal to three-fourths (3/4) inch or more and at least four (4) inches in diameter.
- d. spalling over fifty (50) percent of the surface of a single square of the sidewalk with one or more depressions equal to one-half (1/2) inch or more.
- e. spalling over less than fifty (50) percent of a single square of the sidewalk with one or more depressions equal to three-fourths (3/4) inch or more.
- f. a single square of sidewalk cracked in such a manner that no part thereof has a piece greater than one square foot.
- g. a sidewalk with any part thereof missing to the full depth.

h. a change from design or construction grade equal to or greater than three-fourths (3/4) inch per foot.

2. Sidewalk Improvements. The construction, reconstruction, repair, replacement, or removal of a public sidewalk or the excavating, filling, or depositing of material in the public right-of-way in connection therewith.

3. Owner. The person owning the fee title or the contract purchaser for purposes of notification required herein. For all other purposes, "owner" shall include the lessee, or person in possession.

6-8-3 CLEANING SNOW, ICE, AND ACCUMULATIONS. It shall be the duty of the owner to keep sidewalks abutting the owner's property clear of the natural accumulations of snow or ice. If the owner fails to do so within twenty four (24) hours after deposit of accumulation, the Mayor may have the natural accumulations of snow or ice removed without notice to the property owner. The Mayor shall give the Council an itemized and verified statement of the removal costs and a legal description of the property at the next regular Council meeting. The costs shall be reviewed by the Council, and if found correct, shall be assessed against the property as taxes. The City Clerk shall be directed to certify the costs to the County Treasurer for collection as provided in Section 364.12 of the Code of Iowa.

(Code of Iowa, Sec. 364.12(2b) and (2e))

6-8-4 MAINTENANCE RESPONSIBILITY. The abutting property owner or owners shall be responsible for the repair, replacement or reconstruction of all broken or defective sidewalks to a safe condition and to maintain in a safe condition all sidewalks in the abutting street right-of-way.

(Code of Iowa, Sec. 364.12(2c))

6-8-5 LIABILITY OF ABUTTING OWNER. As provided in Section 364.14, Code of Iowa, in the event the owner of property abutting any public sidewalk fails or refuses to perform any act required of them by this Ordinance and in the event an action is brought against the City for personal injuries alleged to have been caused by a defect in or the condition of said sidewalk, the City may notify in writing the said abutting owner that it claims the injury was caused by their negligence and/or their failure to repair the defect or eliminate the condition complained of. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend.

A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or condition or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

6-8-6 ORDERING SIDEWALK IMPROVEMENTS. The City Council may order the construction, reconstruction, repair, or replacement of permanent sidewalks upon any street or court. Notice of this order shall be sent to the owner by certified mail. The notice shall include the fact that the owner may request a hearing by the Council within fifteen (15) days or receipt of the notice.

6-8-7 REPAIRING DEFECTIVE SIDEWALKS. It shall be the duty of the abutting property owner at any time, or upon receipt of thirty (30) days' notice from the City, to repair, replace, or reconstruct all broken or defective sidewalks in the abutting street right-of-way. If, after the expiration of the thirty (30) days as provided in the notice, the required work has not been done or is not in the process of completion, the Mayor shall order the work to proceed to repair, replace, or reconstruct the sidewalk. Upon completion of the work, the Mayor shall submit to the Council an itemized and verified statement of expenditures for material and labor, and the legal description of the property abutting the sidewalk on which work has been performed. These costs shall be assessed to the property as taxes. The City Clerk shall be directed to certify the costs to the County Treasurer for collection as provided in Section 364.12 of the Code of Iowa.

(Code of Iowa, Sec. 364.12(e))

6-8-8 NOTICE OF INABILITY TO REPAIR OR BARRICADE. It shall be the duty of the owner of the property abutting the sidewalk, or of the contractor or agent of the owner, to notify the City immediately in the event the owner is unable to make necessary sidewalk improvements or to install or erect warnings and barricades as required by this chapter.

6-8-9 STANDARD SIDEWALK SPECIFICATIONS. Sidewalks constructed, repaired, or replaced under the provisions of this chapter shall be of the following construction and meet the following standards:

1. Portland cement concrete shall be the only material used in the construction and repair of sidewalks unless otherwise authorized by the City Council.
2. Sidewalks shall be on one-course construction.
3. Concrete may be placed directly on compact and well-drained soil. Where soil is not well drained, a four (4) inch sub-base of compact, clean, coarse gravel, sand, or cinders shall be laid. The adequacy of the soil drainage is to be determined by the Superintendent of Public Works.
4. The sidewalk bed shall be graded to the established grade.
5. Residential sidewalks shall be at least four (4) feet wide, or match existing sidewalks, and four (4) inches thick, and each section shall be no more than four (4) feet in length. In the central business district, sidewalks shall extend from the property line to the curb unless the

Council shall establish a different distance due to the circumstances. Each section shall be four (4) inches thick and no more than six (6) feet in length and width. All driveway areas shall not be less than six (6) inches in thickness.

6. Residential sidewalks shall be located with the inner edge (edge nearest the abutting private property) on the property line, unless the Council shall establish a different distance due to the circumstances.

7. All elevations of sidewalks are to be established by the City Council with assistance from the Superintendent of Public Works on a case-by-case basis.

8. All sidewalks shall slope at least one-quarter (1/4) inch per foot toward the curb, but in no event more than one-half (1/2) inch per foot toward the curb.

9. All sidewalks shall have a steel trowel finish followed by a “broom” or a “wood float” finish.

10. Ramps for the disabled. There shall not be less than two (2) curb cuts or ramps per lineal block which shall be located on or near the cross-walks at intersections. Each curb cut or ramp shall be at least thirty (30) inches wide, shall be sloped at not greater than one inch of rise per twelve (12) inches lineal distance, except that a slope no greater than one inch of rise per eight (8) inches lineal distance may be used where necessary, shall have a nonskid surface, and shall otherwise be so constructed as to allow reasonable access to the crosswalk for physically disabled persons using the sidewalk.

(Code of Iowa, Sec. 216C.9)

11. All sidewalk improvements on public property, whether performed by the owner of the abutting property or by the City, shall be performed under the supervision and inspection of the City Superintendent of Public Works, and in accordance with the standard sidewalk specifications set forth in this chapter.

6-8-10 PERMITS FOR CONSTRUCTION OR REMOVAL. No person shall make any sidewalk improvements unless such person shall obtain a permit from the City Clerk. The permit shall state that the person will comply with the Ordinances of the City and with the specifications for sidewalks adopted by the City. The permit also shall state that the work will be done under the direction and approval of the City Superintendent of Public Works. All such permits shall be issued without charge and a copy thereof, with the application, shall be filed and preserved in the office of the City Clerk. The permit shall state when the work is to be commenced and when the work is to be completed. The time of completion for the sidewalk improvements may be extended by the City Council. All permits for sidewalk improvements not ordered by resolution of the City Council shall be issued in compliance with this chapter. The City Council may withhold the issuance of any permit for any sidewalk improvements for a sufficient period to determine the necessity for the proposed improvements or when weather conditions will adversely affect the sidewalk improvements.

6-8-11 FAILURE TO OBTAIN PERMIT; REMEDIES. Whenever any sidewalk improvements are made that do not conform to the provisions of this chapter and with the specifications, or when any sidewalk improvements are made without a permit, the Mayor shall serve notice to obtain a permit upon the property owner and upon the contractor doing the work. If the sidewalk is in the course of construction, the notice shall order the work to stop until a permit is obtained and the work is corrected to comply with the specifications. If the sidewalk work has been completed, the owner shall obtain a permit immediately and perform any needed corrections within five (5) days from receipt of the permit. If the owner fails to comply with this notice, the Mayor shall have the work completed and the costs assessed to the property owner as provided in this chapter.

6-8-12 INSPECTION AND APPROVAL. Upon final completion, the Superintendent of Public Works shall inspect the work and may order corrections if the work does not meet specifications. When the work does meet all requirements of this chapter, the specifications, and the permit, the Superintendent of Public Works shall indicate this on both copies of the permit.

6-8-13 BARRICADES AND WARNING LIGHTS. Proper warning lights and barricades shall be placed to protect persons from materials, equipment, and dangerous conditions. Placement and maintenance of adequate warnings is the responsibility of the constructor, the owner, and the lessee of the property.

6-8-14 INTERFERENCE WITH SIDEWALK IMPROVEMENTS. No person shall knowingly or willfully drive any vehicle upon any portion of any sidewalk or approach thereto while it is in the process of being improved, or upon any portion of any completed sidewalk or approach thereto, or shall remove or destroy any part or all of any sidewalk or approach thereto, or shall remove, destroy, mar, or deface any sidewalk at any time or destroy, mar, remove, or deface any notice or warning device provided by this chapter.

6-8-15 SPECIAL ASSESSMENTS FOR CONSTRUCTION AND REPAIR. The City Council may assess the cost of initial construction, improvements, and/or repair of sidewalks in the City according to the special assessment procedures established in Chapter 384, division IV, Code of Iowa.

(Code of Iowa, Sec. 384.38)

6-8-16 NOTICE OF ASSESSMENT FOR REPAIR OR CLEANING COSTS. When the Mayor submits a bill for sidewalk improvements or for removal of accumulations as provided in this chapter, the City Clerk shall send a notice of such facts to the owner of the abutting property. The notice may be given either by personal service or by certified mail to the last known address of the owner. The notice shall contain a statement of the work performed, the cost of the work that is being assessed, a description of the property affected, and the fact that the person may pay the amount assessed within thirty (30) days without interest or penalty. The notice also shall indicate that the person may object to such assessment and given the place and time at which

Council will hear such objections. The time set for hearing shall be at least fifteen (15) days after the service or mailing of the notice.

(Code of Iowa, Sec. 384.50)

6-8-17 HEARING AND ASSESSMENT. At the time and place designed in the Notice, the Council shall consider all objections to the assessment, correct all errors or omissions, and adopt a corrected list as the amounts to be assessed against the property.

(Code of Iowa, Sec. 384.51)

6-8-18 BILLING AND CERTIFYING TO COUNTY. Thirty (30) days after the Council's decision, the City Clerk shall certify any unpaid amounts to the County Treasurer. The unpaid assessments shall constitute a lien against the property and shall be collected by the County Treasurer in the same manner as other taxes. Any assessment that exceeds \$100 may be paid in installments as set by Council, not exceeding ten, in the same manner and at the same interest rates as for special assessments under Chapter 384, division IV, Code of Iowa. No interest shall be charged for assessments, or parts thereof, paid within thirty (30) days of the time the Council determined the final amounts.

(Code of Iowa, Sec. 384.60)

6-8-19 ADAAG COMPLIANCE. All construction, repair, and maintenance of sidewalks shall comply with Americans with Disabilities Guidelines (ADAAG).

6-9-1	Purpose	6-9-3	Provisions for Division of Taxes
6-9-2	Definitions		Levied on Taxable Property in the Urban Renewal Area

6-9-1 **PURPOSE.** The purpose of this ordinance is to provide for the division of taxes levied on the taxable property in the Luxemburg Urban Renewal Area, each year by and for the benefit of the state, city, county, school districts or other taxing districts after the effective date of this ordinance in order to create a special fund to pay the principal of and interest on loans, moneys advanced to or indebtedness, including bonds proposed to be issued by the City of Luxemburg to finance projects in such area.

6-9-2 **DEFINITIONS.** For use within this ordinance the following terms shall have the following meanings:

1. "City" shall mean the City of Luxemburg, Iowa.
2. "County" shall mean Dubuque County, Iowa.
3. "Urban Renewal Area" shall mean the Luxemburg Urban Renewal Area, such area having been identified in the Urban Renewal Plan approved by the City Council by resolution adopted on December 4, 2006.
4. "Tax Increment District" shall mean that portion of the Urban Renewal Area legally described as follows:

The following real property situated in the City of Luxemburg, County of Dubuque, State of Iowa; The North 1146.41 feet of Lot B, Block 1 of Luxemburg Subdivision; Lot 4 of Ungs Heights Subdivision, excluding the West 50 feet; and Lots 2-1 and 3-1 of the Northwest quarter of the Northwest quarter of Section 22 Township 10N Range 2W.

6-9-3 **PROVISIONS FOR DIVISION OF TAXES LEVIED ON TAXABLE PROPERTY IN THE URBAN RENEWAL AREA.** After the effective date of this ordinance, the taxes levied on the taxable property in the Tax Increment District each year by and for the benefit of the State of Iowa, the City, the County and any school district or other taxing district in which the Tax Increment District is located, shall be divided as follows:

1. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts upon the total sum of the assessed value of the taxable property in the Tax Increment District, as shown on the assessment roll as of January 1 of the calendar year preceding the first calendar year in which the City certifies to the County Auditor the amount of loans, advances, indebtedness, or bonds payable from the special fund referred to in paragraph (b) below, shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other

property taxes are paid. For the purpose of allocating taxes levied by or for any taxing district which did not include the territory in the Tax Increment District on the effective date of this ordinance, but to which the territory has been annexed or otherwise included after the effective date, the assessment roll applicable to property in the annexed territory as of January 1 of the calendar year preceding the effective date of the ordinance which amends the plan for the Tax Increment District to include the annexed area, shall be used in determining the assessed valuation of the taxable property in the annexed area.

2. That portion of the taxes each year in excess of such amounts shall be allocated to and when collected be paid into a special fund of the City to pay the principal of and interest on loans, moneys advanced to or indebtedness, whether funded, refunded, assumed or otherwise, including bonds issued under the authority of Section 403.9(1), of the Code of Iowa, incurred by the City to finance or refinance, in whole or in part, projects in the Urban Renewal Area, and to provide assistance for low and moderate-income family housing as provided in Section 403.22, except that taxes for the regular and voter-approved physical plant and equipment levy of a school district imposed pursuant to Section 298.2 of the Code of Iowa, and taxes for the payment of bonds and interest of each taxing district shall be collected against all taxable property within the taxing district without limitation by the provisions of this ordinance. Unless and until the total assessed valuation of the taxable property in the Tax Increment District exceeds the total assessed value of the taxable property in such area as shown by the assessment roll referred to in subsection (a) of this section, all of the taxes levied and collected upon the taxable property in the Tax Increment District shall be paid into the funds for the respective taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes. When such loans, advances, indebtedness, and bonds, if any, and interest thereon, have been paid, all money thereafter received from taxes upon the taxable property in the Tax Increment District shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

3. The portion of taxes mentioned in subsection (b) of this section and the special fund into which that portion shall be paid may be irrevocably pledged by the City for the payment of the principal and interest on loans, advances, bonds issued under the authority of Section 403.9(1) of the Code of Iowa, or indebtedness incurred by the City to finance or refinance in whole or in part projects in the Urban Renewal Area.

6-10-1 PURPOSE. The purpose of this Ordinance is to establish a restricted residence district in the City of Luxemburg, Iowa, and to provide reasonable rules and regulations for the erection, reconstruction, altering, and repairing of buildings of all kinds, and to provide that there shall be no use in such district except for residences, schoolhouses, churches, and other similar structures, except when a permit is granted in accordance with this Ordinance.

(Code of Iowa, Sec. 414.1 and 414.24)

6-10-2 DEFINITIONS. For use in this Ordinance, the following terms are defined:

1. "Residence" is a building used exclusively for a dwelling. No business or occupation shall be conducted therein or in conjunction therewith whereby sales or services are made in a manner that the public served enters upon the residential property. The following are excepted: a beauty shop, conducted solely by the occupant and one person not resident on the property; music or art teacher, a rooming or boarding house with no more than two guests; and for which uses no external or internal alterations of the structure are made and no more than one sign indicating said occupation shall be displayed (but the sign may be double faced) nor shall the sign have a single face area of over one square foot.

2. "School" is a building used for educational purposes, public or private, that is regulated by the State Department of Public Instruction as to curriculum.

3. "Garage" is a structure for sheltering motor vehicles or household equipment and/or effects.

4. "Residential accessory use" is a building or structure customarily used in conjunction with a dwelling, namely a garage with a capacity of not more than four cars or more than one garage per apartment building nor more than one stall per dwelling unit, a tool or "summer" house not exceeding 100 square feet floor area, or a private swimming pool properly fenced and screened.

Any other building on residential property shall not be deemed a residential accessory use if not incidental to a residential purpose, nor if it is used in conjunction with or for the business of selling goods or rendering services.

5. “Church”, or “church school” is a building used for public worship, or connected with a building so used, for instruction in religious beliefs, or for the conduct of activities related to church affairs.

6-10-3 DISTRICT DESCRIBED. The following restricted residence district is hereby designated and established.

The City of Luxemburg Restricted Residence District shall consist of all lands lying within the corporate limits of the City of Luxemburg located in Sections 15, 16, 21, and 22. Township 90 North, Range 2, West of the 5th P.M. in Liberty Township, Dubuque County, Iowa.

6-10-4 BUILDINGS PERMITTED. No buildings or other structures, except residences, schoolhouses, churches, and other similar structures shall be hereafter erected, reconstructed, altered, repaired, or occupied within said district without first securing from the City Council a permit therefor. Permits for residences, schoolhouses, churches, and other similar structures, and for structures outside restricted residence districts, shall be applied for and are required, but shall be issued by the City Clerk if the requirements of this and other applicable City Ordinances are met, but no council permission shall be required under this Ordinance.

6-10-5 RULES AND REGULATIONS. As permitted under Section 414.24 of the Code of Iowa, there are hereby adopted the following rules and regulations for the erection, reconstruction, altering, and repairing of buildings of all kinds within restricted districts established by this Ordinance for the use and occupancy of such buildings, and for the granting of permits to erect, reconstruct, alter, or repair any structure other than a residence, residential accessory use, school, church, or church school within said districts.

6-10-6 SET BACK. No residential building or residential accessory use building shall be erected hereafter on a lot closer to the street property line on which it fronts than the set back of the nearest adjacent existing building except that no new construction shall be made closer than twenty (20) feet, nor shall any construction be required to be built with its front further than thirty (30) feet from said front line. All buildings to be used for residential purposes shall be placed on lots of no less than 10,000 square feet.

No residence or other building exempted from permit shall be located in the restricted district closer than ten (10) feet to the side lot lines, and no accessory building closer than ten (10) feet to said side lot lines, and overhangs shall not extend over any lot line, regardless of the compliance of the main foundation with this set back rule. However, any residence, other building, or accessory building currently located closer than ten (10) feet to the side lot lines, may be extended or altered in conformance with its existing side lot set back lines. In no case may the residence, other building, or accessory building be located closer to the side lot line than it is currently located. Any other building granted a permit by council shall be placed at least as far from side lot lines as the residential, school, and church related buildings. All setbacks shall be measured from the main foundation line.

(Ord. 2017-01, Passed March 6, 2017)

6-10-7 BUILDINGS REQUIRING SPECIAL PERMITS TO LOCATE WITHIN RESTRICTED DISTRICTS. Construction of clinics, offices, hospitals, utility buildings and substations, any type of commercial stores and warehouses, plant nurseries, farm buildings, and industrial buildings and structures may be authorized by special permit to locate within the restricted residential district only if it appears that said use and the type of building will be compatible with the residential character of the district, and if the particular use could not practicably be built in an unrestricted area, or if the restricted district boundaries cannot be amended logically, considering topography, access to railroad or highway or other proper reason acceptable to the council. Further, the construction and/or placement of a building or structure that would otherwise be violative of Section 6-10-6 may be authorized by special permit if it appears that such deviation from the lot size and/or set back requirements of that section would alleviate a substantial hardship for the permit applicant, be compatible with the character of the neighborhood and not create a substantial hardship for neighboring property owners.

6-10-8 SPECIAL PERMITS. A written special permit shall be required for the erection, reconstruction, alteration, or repair of any building and for its occupancy and use within the restricted residential district of this City except for buildings for residences, residential accessory use, schools, churches, and church schools. Further, a written special permit shall be required to authorize the construction and/or placement of any building or structure contrary to the requirements of Section 6-10-6. Any such permit shall be applied for in writing, accompanied by plans and specifications sufficient to determine compliance with applicable Ordinances of the City and/or the extent to which proposed construction deviates from the requirements of Section 6-10-6. Said application shall be made to the City Clerk at least seven (7) days before the council meeting at which council action is taken. No permit shall or will be granted until notice of the application has been posted at least four (4) days prior to the meeting at which final action is taken to grant or deny the permit.

6-10-9 PROTEST. No permit shall be granted when sixty (60) percent of the resident real estate owners in said district within six hundred (600) feet of the proposed building and occupancy object thereto, except by a three-fourths (3/4) vote of all the members of the council.

6-10-10 FEES. There shall be no fee required for a permit under this Ordinance.

6-10-11 ACTION TO ABATE. Any building or structure erected, reconstructed, altered, or repaired in violation of the provisions of this Ordinance shall be deemed unlawful and a nuisance and it shall be abated by action in the district court. Such action for abatement shall be prosecuted in the name of the municipality.

6-10-12 NONCONFORMING STRUCTURES. Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such structure may be continued for as long as it remains otherwise lawful, subject to the following provisions:

1. No such structure may be enlarged or altered in a way which increases its nonconformity.

2. Should such structure be destroyed by any means to an extent of more than fifty percent (50%) of its replacement cost at the time of destruction, it shall not be reconstructed except in conformity with the provisions of this ordinance.

6-10-13 NONFORMING USES OF STRUCTURES. If a lawful use of a structure, or of structure and premises in combination, exists at the effective date of adoption or amendment of this ordinance, that would not be allowed in the district under the terms of this ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.

2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this ordinance, but no such use shall be extended to occupy any land outside such building.

3. If no structural alterations are made, any nonconforming use of a structure or structure and premises in combination may be changed to another nonconforming use provided that the Board of Adjustment, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Adjustment may require appropriate conditions of safeguarding in accord with the provisions of this ordinance.

4. Any structure or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district in which such structure is located, and the nonconforming use may not thereafter be resumed.

5. When a nonconforming use of a structure or structure and premises in combination is discontinued for six (6) consecutive months or for eighteen (18) months during any three-year period, the structure thereafter shall not be used except in conformity with the regulations of the district in which it is located.

6. Where nonconformity use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.

6-10-14 CERTIFYING ORDINANCE. Within fifteen (15) days after this Ordinance becomes effective the Clerk shall prepare or have prepared a plat of the restricted residence district as established by this Ordinance and certify such Ordinance and plat to the County Recorder.

6-15-1 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. The Legislature of the State of Iowa has in Chapter 364, Code of Iowa, as amended, delegated the power to cities to exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges and property of the City or of its residents, and to preserve and improve the peace, safety, health, welfare, comfort and convenience of its residents.

2. Findings of Fact.

a. The flood hazard areas of the City of Luxemburg are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.

b. These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.

3. Statement of Purpose. It is the purpose of this Ordinance to protect and preserve the rights, privileges and property of the City of Luxemburg and its residents and to preserve and improve the peace, safety, health, welfare, and comfort and convenience of its residents by minimizing those flood losses described in subsection 6-15-1(2)(B) of this Ordinance with provisions designed to:

a. Restrict or prohibit uses which are dangerous to health, safety or property in times of flood or which cause excessive increases in flood heights or velocities.

b. Require that uses vulnerable to floods, including public facilities which serve such uses, be protected against flood damage at the time of initial construction or substantial improvement.

c. Protect individuals from buying lands which may not be suited for intended purposes because of flood hazard.

d. Assure that eligibility is maintained for property owners in the community to purchase flood insurance through the National Flood Insurance Program.

6-15-2 GENERAL PROVISIONS.

1. Lands to Which Ordinance Applies. The provisions of this Ordinance shall apply to all areas having special flood hazards within the jurisdiction of the City of Luxemburg. For the purpose of this Ordinance, the special flood hazard areas are those areas designated as Zone A on the Flood Insurance Rate Map (FIRM) for Dubuque and Incorporated Areas, City of Luxemburg, Panel 19061C0155E, dated October 18, 2011, which is hereby adopted and made a part of this Ordinance.

2. Rules for Interpretation of Flood Hazard Boundaries. The boundaries of the Special Flood Hazard areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Mayor shall make the necessary interpretation. The City Council shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Luxemburg in the enforcement or administration of this Ordinance.

3. Compliance. No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this Ordinance and other applicable regulations which apply to uses within the jurisdiction of this Ordinance.

4. Abrogation and Greater Restrictions. It is not intended by this Ordinance to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this Ordinance imposes greater restrictions, the provision of this Ordinance shall prevail. All other ordinances inconsistent with this Ordinance are hereby repealed to the extent of the inconsistency only.

5. Interpretation. In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

6. Warning and Disclaimer of Liability. The standards required by this Ordinance are considered reasonable for regulatory purposes. This Ordinance does not imply that areas outside the designated special flood hazard areas will be free from flooding or flood damages. This Ordinance shall not create liability on the part of the City of Luxemburg or any officer or employee thereof for any flood damages that result from reliance on this Ordinance or any administrative decision lawfully made there under.

7. Severability. If any section, clause, provision or portion of this Ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this Ordinance shall not be affected thereby.

6-15-3 FLOODPLAIN MANAGEMENT STANDARDS. All uses must be consistent with the need to minimize flood damage and meet the following applicable performance standards.

Where 100-year flood data has not been provided on the Flood Insurance Rate Map, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All development within the special flood hazard areas shall:
 - a. Be consistent with the need to minimize flood damage.
 - b. Use construction methods and practices that will minimize flood damage.
 - c. Use construction materials and utility equipment that are resistant to flood damage.
 - d. Obtain all other necessary permits from federal, state and local governmental agencies including approval when required from the Iowa Department of Natural Resources.

2. Residential Buildings. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the 100-year flood level. Construction shall be upon compacted fill which shall, at all points, be no lower than 1.0 ft. above the 100-year flood level and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon.

Alternate methods of elevating (such as piers) may be allowed subject to favorable consideration by the City Council, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding.

All new residential structures shall be provided with a means of access which will be passable by wheeled vehicles during the 100-year flood.

3. Non-Residential Buildings. All new or substantially improved non-residential buildings shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the 100-year flood level, or together with attendant utility and sanitary systems, be floodproofed to such a level.

When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100-year flood; and that the structure, below the 100-year flood level is watertight with walls substantially impermeable to the passage of water.

A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator.

4. All New and Substantially Improved Structures.

a. Fully enclosed areas below the "lowest floor" (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:

(1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

(2) The bottom of all openings shall be no higher than one foot above grade.

(3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters. Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.

b. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.

c. New and substantially improved structures must be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

5. Factory-Built Homes.

a. All factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the 100-year flood level.

b. All factory-built homes, including those placed in existing factory-built home parks or subdivisions shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors.

6. Utility and Sanitary Systems.

a. On-site waste disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.

b. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the 100-year flood elevation.

c. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other

than on-site systems) shall be provided with a level of protection equal to or greater than one (1) foot above the 100-year flood elevation.

d. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.

7. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot above the 100-year flood level. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.

8. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from a 100-year flood with a minimum of 3 ft. of design freeboard and shall provide for adequate interior drainage. In addition, the Department of Natural Resources shall approve structural flood control works.

9. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, the Department of Natural Resources must approve such alterations or relocations.

10. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this Ordinance.

Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the 100-year flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Special Flood Hazard Area.

11. Accessory Structures.

a. Detached garages, sheds, and similar structures accessory to a residential use are exempt from the 100-year flood elevation requirements where the following criteria are satisfied.

(1) The structure shall not be used for human habitation.

(2)The structure shall be designed to have low flood damage potential.

(3)The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.

(4)The structure shall be firmly anchored to prevent flotation which may result in damage to other structures.

(5)The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the 100-year flood level.

b. Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.

12. Recreational Vehicles.

a. Recreational vehicles are exempt from the requirements of subsection 6-15-3(5) of this Ordinance regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.

(1)The recreational vehicle shall be located on the site for less than 180 consecutive days, and,

(2)The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

b. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of subsection 6-15-3(5) of this Ordinance regarding anchoring and elevation of factory-built homes.

12. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.

6-15-4 ADMINISTRATION

1. Appointment, Duties and Responsibilities of Floodplain Administrator

a. The Mayor is hereby appointed to implement and administer the provisions of this Ordinance and will herein be referred to as the Administrator.

b. Duties of the Administrator shall include, but not necessarily be limited to the following:

(1)Review all floodplain development permit applications to assure that the provisions of this Ordinance will be satisfied.

(2)Review floodplain development applications to assure that all necessary permits have been obtained from federal, state and local governmental agencies including approval when required from the Department of Natural Resources for floodplain construction.

(3)Record and maintain a record of the elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of all new or substantially improved structures in the special flood hazard area.

(4) Record and maintain a record of the elevation (in relation to North American Vertical Datum 1988) to which all new or substantially improved structures have been floodproofed.

(5) Notify adjacent communities/counties and the Department of Natural Resources prior to any proposed alteration or relocation of a watercourse and submit evidence of such notifications to the Federal Emergency Management Agency.

(6) Keep a record of all permits, appeals and such other transactions and correspondence pertaining to the administration of this Ordinance.

2. Floodplain Development Permit

a. Permit Required. A Floodplain Development Permit issued by the Administrator shall be secured prior to any floodplain development (any man-made change to improved and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations), including the placement of factory-built homes.

b. Application for Permit. Application shall be made on forms furnished by the Administrator and shall include the following:

(1) Description of the work to be covered by the permit for which application is to be made.

(2) Description of the land on which the proposed work is to be done (i.e., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.

(3) Indication of the use or occupancy for which the proposed work is intended.

(4) Elevation of the 100-year flood.

(5) Elevation (in relation to North American Vertical Datum 1988) of the lowest floor (including basement) of buildings or of the level to which a building is to be floodproofed.

(6) For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.

(7) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this Ordinance.

c. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed floodplain development meets the applicable standards of this Ordinance and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefore. The Administrator shall not issue permits for variances except as directed by the City Council.

d. Construction and Use to be as Provided in Application and Plans. Floodplain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this Ordinance.

The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, building floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this Ordinance, prior to the use or occupancy of any structure.

3. Variance

a. The City Council may authorize upon request in specific cases such variances from the terms of this Ordinance that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship. Variances granted must meet the following applicable standards.

(1)Variances shall only be granted upon: (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.

(2)Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

(3)In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this Ordinance, the applicant shall be notified in writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.

b. Factors Upon Which the Decision of the Council Shall be Based - In passing upon applications for Variances, the Council shall consider all relevant factors specified in other sections of this Ordinance and:

(1)The danger to life and property due to increased flood heights or velocities caused by encroachments.

(2)The danger that materials may be swept on to other land or downstream to the injury of others.

(3)The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.

(4)The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.

(5)The importance of the services provided by the proposed facility to the City.

(6)The requirements of the facility for a floodplain location.

(7)The availability of alternative locations not subject to flooding for the proposed use.

(8)The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.

(9)The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.

(10) The safety of access to the property in times of flood for ordinary and emergency vehicles.

(11) The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.

(12) The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.

(13) Such other factors which are relevant to the purpose of this Ordinance.

c. Conditions Attached to Variances. Upon consideration of the factors listed above, the Board may attach such conditions to the granting of variances as it deems necessary to further the purpose of this Ordinance. Such conditions may include, but not necessarily be limited to:

(1)Modification of waste disposal and water supply facilities.

(2)Limitation of periods of use and operation.

(3)Imposition of operational controls, sureties, and deed restrictions.

(4)Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this Ordinance.

(5)Floodproofing measures.

6-15-5 NONCONFORMING USES

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this Ordinance, but which is not in conformity with the provisions of this Ordinance, may be continued subject to the following conditions:

a. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this Ordinance.

b. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.

2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this Ordinance. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

6-15-6 PENALTIES FOR VIOLATION. Violations of the provisions of this Ordinance or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this Ordinance or fails to comply with any of its requirements shall upon conviction thereof be fined not more than \$500.00 (FIVE HUNDRED DOLLARS). Nothing herein contained prevent the City of Luxemburg from taking such other lawful action as is necessary to prevent or remedy violation.

6-15-7 AMENDMENTS. The regulations and standards set forth in this Ordinance may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

5. "Existing factory-built home park or subdivision" means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the first floodplain management regulations adopted by the community.

15. "Floodway" means the channel of a river or stream and those portions of the floodplains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.

b. The enclosed area is unfinished (not carpeted, drywalled, etc.) and used solely for low damage potential uses such as building access, parking or storage, and

c. Machinery and service facilities (e.g., hot water heater, furnace, electrical service) contained in the enclosed area are located at least one (1) foot above the 100-year flood level, and

d. The enclosed area is not a "basement" as defined in this section. In cases where the lowest enclosed area satisfies criteria a, b, c, and d above, the lowest floor is the floor of the next highest enclosed area that does not satisfy the criteria above.

19. “Minor projects” means small development activities (except for filling, grading and excavating) valued at less than \$500.

20. “New construction” (new buildings, factory-built home parks) means those structures or development for which the start of construction commenced on or after the effective date of the first floodplain management regulations adopted by the community.

21. “New factory-built home park or subdivision” means a factory-built home park or subdivision for which the construction of facilities for servicing the lots on which the factory-built homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of the first floodplain management regulations adopted by the community.

22. “One hundred (100) year flood” means a flood, the magnitude of which has a one (1) percent chance of being equaled or exceeded in any given year or which, on the average, will be equaled or exceeded a least once every one hundred (100) years.

- a. Built on a single chassis;

24. “Routine maintenance of existing buildings and facilities” means repairs necessary to keep a structure in a safe and habitable condition that do not trigger a building permit, provided they are not associated with a general improvement of the structure or repair of a damaged structure. Such repairs include:

- a. Normal maintenance of structures such as re-roofing, replacing roofing tiles and replacing siding;
- b. Exterior and interior painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work;

26. "Start of construction" includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date.

The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation.

Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure

29. "Substantial improvement" means any improvement to a structure which satisfies either of the following criteria:

a. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (i) before the "start of construction" of the improvement , or (ii) if the structure has been "substantially damaged" and is being restored, before the damage occurred.

The term does not, however, include any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of an "historic structure", provided the alteration will not preclude the structure's designation as an "historic structure".

b. Any addition which increases the original floor area of a building by twenty five (25) percent or more. All additions constructed on or after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed twenty five (25) percent.

30. "Variance" means a grant of relief by a community from the terms of the floodplain management regulations.

31. "Violation" means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations.

2. Subdivision of Lots. No lot shall be subdivided or re-subdivided to make smaller lots. This restriction shall not prevent an owner of two or more continuous lots from building one dwelling unit on more than one adjoining platted lot as shown on the plat of properties, provided, such owner or owners replat said lots; following all platting procedures required under the ordinances of the City of Luxemburg and the statutes of the State of Iowa, to the end that said lots are combined and only one dwelling unit is erected on each such replatted lot.

It is the intention and purpose of these covenants and restrictions to insure that all structures shall be of quality of design, workmanship and materials which are compatible and harmonious with the other structures within the Properties. All structures shall be constructed in accordance with applicable building codes and setback requirements. Any party who erects a factory built home must first make a \$2,000.00 (two thousand dollar) deposit for potential street damage caused by the cranes used to set said homes. - i. Rain water leaders, roof leaders, surface drains, or groundwater drains shall not be connected to the sanitary sewer. They will all be day lighted.

5. Location of Structures on Lots. The Developer deems the establishment of standard building setback lines for location of structures on individual lots is compatible with the objective of preserving the natural setting of the area and preserving and enhancing the existing features of natural beauty and visual continuity of the area. Setbacks are as per promulgated by the City of Luxemburg. All dwellings shall present their most attractive fronts to the street in the subdivision upon which the lot abuts.

6. Temporary Structures. No trailer, mobile home, basement, tent, shack, barn, or other out building erected on any of the Properties shall at any time be used as a resident dwelling, temporarily or permanently, nor shall any dwelling of a temporary character be permitted on any lot. Seeding, sodding, grading, and general landscaping shall be completed within 12 months from the commencement of excavation on the lot. Soil erosion shall be kept to a minimum and within the limits as provided by law.

8. Maintenance of Lots. All lots, whether occupied or unoccupied, and any improvements placed thereon, at all times shall be maintained in a manner as to prevent their becoming unsightly, unsanitary, or a hazard to health. If not so maintained, the City of Luxemburg shall have the right, through its agents and employees to do so, the cost of which shall be paid by the owner.

9. Lot Appearance. No owner shall accumulate on any lot junked vehicles, litter, refuse, or other unsightly materials. All driveways shall be of hard surface construction, and completed within 12 months after occupancy of the dwelling. Habitual parking on roadways is prohibited.

b. The owner shall not place any structure on any such easement and shall be responsible for maintaining the easement; however, any damage caused by the user of the easement shall be repaired and restored by such user.

c. No owner shall have any claim or cause of action, except as herein provided, against Developer, its successors, assigns, or licensees arising out of exercise or non-exercise of any reserved easement except cases of willful or wanton misconduct.

12. Parking and Storage. No campers, trailers, vehicles, recreational vehicles, boats or snowmobiles shall be parked, kept or stored on any undeveloped lot within the Properties. No inoperable, dismantled, or wrecked motor vehicles trailers or machinery or parts thereof, including scrap metal or other scrap materials, shall be permitted to be placed upon or remain upon any of the Properties.

No obnoxious or offensive activity shall be carried out in any dwelling unit or upon any lot within the Properties, nor shall anything be done thereon which may become an annoyance or nuisance to other persons and lot owners within the Properties. No plants or seeds or other things or conditions harboring, or breeding infectious plant disease or noxious insects shall be introduced or maintained upon any part of a lot within the Properties.

14. Signs. No signs, billboards or advertising device, except those used in the sale of any lot or dwelling unit within the Properties shall be placed on any lot or dwelling unit of the Properties.

2. Notices. Any notice sent or required to any lot owner under the provisions of this ordinance shall be deemed to have been properly given when mailed, postage prepaid, to the last known address of the person who appears as a lot owner on the records of the City of Luxemburg at time of mailing.

3. Enforcement. Enforcement of these covenants and restrictions shall be by any proceeding at law or in equity against any person or persons violating or attempting to violate any covenant or restriction. Such action may be either to restrain violation or to recover damages. Failure by any owner to enforce any covenant or restriction herein contained in no event shall be deemed a waiver of the right to do so thereafter.

4. Modification. By recorded Supplemental Declaration, the City of Luxemburg may modify any of the provisions of this ordinance or any Supplemental Declaration for the purposes of clarification or otherwise, provided that it shall not substantially alter the scheme of this ordinance or any succeeding Supplemental Declaration and provided the modification is approved by two-thirds of the votes which lot owners are entitled to cast.

1. Any notice sent pursuant to this section 6-17-2 may be sent by regular or certified mail and must contain the following language: "You are advised that you may request a hearing on this matter before the City Clerk by notifying the City Clerk of such request not later than noon on the day preceding the scheduled shut-off date."
